Art. 5. Insurance Cover

Art. 5.1 Insurance coverage for the organiser

Art. 5.1.1 Organiser's liability insurance

The Organiser has concluded an insurance contract with Organiser's liability insurance covering damage caused to a third party during the competition.

The insurance cover will come into effect from the start of the rally and will cease at the end of the rally or at the moment of permanent retirement or disqualification. Cars having retired and restarted shall not be considered to have permanently retired. Crews participating in the Shakedown will be insured for its duration under the same policy.

Art. 5.1.2 Damage caused to the third party

A part of the insurance contract is coverage for damages caused to a third party. However, damages caused by drivers among themselves are not covered by this contract.

Art. 5.1.3 Car third party liability insurance

All crews at Administrative Checks have to hand in a valid motor third party liability insurance policy International Green Card for their car. Without this card, the crew won't be permitted to start.

Art. 5.2 Insurance coverage for competitors and crews

All the drivers and co-drivers are obliged to arrange their own accident insurance. The proof should be documented on request at Administrative Checks. The insurance of foreign crews have to cover the costs of possible medical treatment in Poland and their repatriation, if necessary, in the event of an accident.

By the fact of signing the entry form, the competitors and/or driver/co-driver relinquish any claims to compensations of any kind which might result due to incidents during the Rally. The relinquishment is applied to FIA, ASN and the Organiser, officials and other competitors and/or drivers.

Art. 5.3 Damage reporting

The competitor or his representative are obliged to notify the Organiser in writing about any damage caused on the track by their car as quickly as possible and within 24 hours. Violation of this duty stands for summoning the competitor and involved crew to a disciplinary committee. He must explain the circumstances under which the accident occurred. Likewise, he must mention the names and addresses of any witnesses.

Art. 5.4 Insurance coverage exclusions

Service and auxiliary vehicles, cars dedicated to Reconnaissance rides and other vehicles with special plates issued by the Organiser are not covered by the provided rally insurance (with the exception of insured Organiser's cars) and those are always going on their own responsibility.

Art. 6. Advertising and Identification

See Appendix 4 of these SR "Decals and positioning of supplementary advertising".

Art. 12.6.4 Re-start after retirement

Art. 12.6.4.1 A crew which has failed to complete a section may be assumed to re-start the rally from the start of the next section following the overnight regroup unless they confirm otherwise with the Clerk of the Course by completing of the form located in the rear of the road book (“final retirement”) and lodging it with the Organiser as soon as possible and, if feasible, before the publication of the re-start list. The car must report to the overnight Parc Fermé prior to the next section following the overnight regroup, no later than 1 hour before the scheduled start of the 1st car. Re-scrutineering will be 1 hour before the start of the 1st driver.

Art. 12.6.4.2 Parc Fermé for re-starting cars

There will be no dedicated Parc Fermé for retired re-starting cars. These will use the same Parc Fermé as for the rest of the event.

Art. 12.6.5 Service Park

Art. 12.6.5.1 Service Park location

Only one Service Park located in Rzeszów will be organised during the Rally. Surface: mixed hard surface. Location: Rzeszów University of Technology Campus - Rzeszów, ul. Akademicka
Date: from Thursday, 10.08.2023, 08:00 to Saturday, 12.08.2023, 20:00.

Art. 12.6.5.2 Access

Service Park can be entered only with competition cars, Service cars (SERVICE plates) and Auxiliary vehicles (AUXILIARY plates). All plates must be affixed to the upper side of the windscreen on the right (passenger) side. Removal of the sticker and use one sticker on different cars is prohibited until the end of the rally. All cars must be parked inside a service area allocated for a competitor as stipulated in Art. 4.4.5 of these Supplementary Regulations.

Reconnaissance cars and VIP vehicles are not allowed to enter the Service Park.

Art. 12.6.5.3 Service area

The competitor is obliged to service only within the allocated service area in the Service Park. These regulations will be controlled by the Service Park Coordinator. Any infringement will result in charging a double fee for additional service area: 50 PLN per 1 m² – for private entrants and 70 PLN per 1 m² – for legal entrants.

Art. 12.6.5.4 Maximum speed

Maximum speed inside the Service Park is limited by 30 km/h. Failure to comply with this limit shall result in a penalty applied by the Clerk of the Course according to Art. 34.3.4 of the FIA RRSR.

Art. 12.6.5.5 Catering within the Service Park

Apart from the provision of a catering service for the drivers and service crew personnel of a team, any other form of catering or sale of food and beverages in the service park is prohibited. The only exception is possible when a written agreement has been signed between a team and the Organisers. A fine of 4 000 PLN will be applied in case of any infringement of this regulation.

Art. 12.6.5.6 Promotional activity in Service Park

If any team or company would like to organise shows or exhibitions for their guests in service area, they must ask the Organiser for permission before Administrative Checks. All shows and exhibitions in service area without permission of the Organiser are strictly forbidden.

Art. 12.6.5.7 Environment protection

All competitor are obliged to use a liquid-proof tarp (size 4x6 m; thickness min. 0,5 mm) on their service area (under serviced cars). Any damages to the surface of the Service Park have to be avoided. Each Competitor is responsible for the damages to the allocated service area. Teams are responsible for the removal of their waste and sewage.

After the rally, the Service Park has to be handed over in tidy condition. The Organiser will charge a deposit of 100 PLN / 25 EUR. It will be refund after the rally on condition that the service area allocated to the competitor will be cleaned, which will be checked by the Service Park Coordinator.

Art. 12.6.5.8 Flexi Service

For the operation of 45' flexi-servicing, crews will enter the Parc Fermé. After a minimum 10 minutes stay crews may then either enter the Service Park or leave their car in the Parc Fermé. According to Art. 59.2.2 of FIA RRSR, the competing car may be driven by an authorised representative of the competitor only from the Parc Fermé to the Service Park and vice versa respecting all the formalities of time card presentation and related penalties. The competing car may be conducted to the overnight Parc Fermé before the 45 minutes have elapsed without penalty. All cars except re-starting crews have to be in the overnight Parc Fermé no later than at 23:15.

Art. 12.6.6 Testing

Competitors wishing to organise pre-rally tests in Podkarpackie Voivodeship, between 11.07.2023 to 12.08.2023 are required to send a written notice to the Organiser of the rally and get permission before the beginning of tests. Organising test without permission may result in applying a penalty - no permission to start in the rally. Permission will be issued to each private pre-rally test Organiser, after submission of the relevant permits form the local government.

Art. 12.7 Official time used during the rally

The official time will be UTC/GMT + 2 hours (Summer DTS).

Appendix 4 – Decals and supplementary advertising

The organizers will provide each crew with (A):

- One plate fitting into a rectangle (43cm x 21,5cm) which include the competitor number.
- One rear window plate (30cm x 10cm). Must be positioned at the bottom of the rear window, containing fluorescent orange 14cm high competitor number on a clear background.
- Two front door panels (67cm x 17cm). Each panel shall be placed horizontally at the leading of each front door with the number (in yellow) at the front (in both sides). The top of the plate shall be between 7cm and 10cm bellow the bottom window line.
- Two numbers in orange (20cm high). Must appear on the rear side window on the both sides of the car adjacent to the crew's names – flags.

All of the above stickers are mandatory for all competitors.

Optional advertising (B):

Below the two front door panel the Organiser reserve an area of a panel measuring 23cm in length an 35cm in high for the organizers sponsors, who will be communicated by bulletin.

Appendix 5 – Extracts from FIA ISC Appendix L relating to overalls, helmets and any other safety requirements

All competitors are reminded of Appendix L of the FIA International Sporting Code, in particular its Chapter III - Drivers' Equipment.

Helmets (Appendix L, Chapter III, Art. 1)

All crews must wear crash helmets homologated to one of the following FIA standards:

- 8858-2002 or 8858-2010 (Technical List N°41),
- 8859 (Technical List N°49),
- 8860-2010 (Technical List N°33), or
- 8860-2018 or 8860-2018-ABP (Technical List N°69).

Frontal Head Restraint (FHR, Appendix L, Chapter III, Art. 3)

All crews must use FIA approved FHR systems homologated to FIA standard 8858.

Approved FHRs, anchorages and tethers are listed in Technical List N° 29.

See also helmet compatibility chart in Appendix L, Chapter III, Art. 3.3.

Flame-resistant clothing (Appendix L, Chapter III, Art. 2)

All drivers and co-drivers must wear overalls as well as gloves (optional for co-drivers), long underwear, a balaclava, socks and shoes homologated to the FIA 8856-2000 standard (Technical List N°27) or 8856-2018 (Technical List N° 74). Please pay special attention to the prescriptions of Art. 2 concerning embroidery and printing on flame-resistant clothing (manufacturer certificates etc.) **as well as concerning the correct wearing of the clothing elements! See also Regional Rally Sporting Regulations, Article 53.1.**

Biometric Devices (Appendix L, Chapter III, Art. 2.1)

Drivers may wear a device to collect biometric data during racing.

- If the biometric device is integrated into a protective garment homologated to FIA Standard 8856, the garment shall be homologated to FIA Standards 8856 and 8868-2018.
- If the biometric device is a stand-alone device, then the device must be homologated to FIA Standard 8868-2018 only. This device must be worn in addition to the garment homologated to FIA Standard 8856.

Wearing of jewellery (Appendix L, Chapter III, Art. 5)

The wearing of jewellery in the form of body piercing or metal neck chains is prohibited during the competition and may therefore be checked before the start.

Appendix 6 – Gravel Crew marking

Appendix 7 – User manual for the GPS device used to monitor the Reconnaissance of the rally

Description:

The TC-1 system is designed to monitor the Reconnaissance. It is mounted in the car indicated by the competitor. The device records and transmits continuously data from the vehicle.

Installation:

The device should be mounted on the inside of the vehicle's lower windscreen, in the centre of the vehicle. The assembly consists in sticking the supplied self-adhesive velcro to the glass and then fixing the device by connecting the glued velcro with the piece on the device. The device should be visible to the crew.

Power supply of the device:

The device must be connected to the vehicle's cigarette lighter socket.

Power supply presence indication:

The device has a built-in signalling of the presence of supply voltage in the form of a red diode. The red diode lighting means that the device is properly powered. The signalling is equipped with a dimming function – the intensity of the light emitted by the diode will decrease proportionally to the external lighting. There is also an LED in the cigarette lighter plug. It lights when the power is connected. There is no dimming function.

Competitor's responsibilities:

1. Assembling the device on the windshield and connecting the device to the cigarette lighter socket,
2. For the period of Reconnaissance, from the time of handing over the device to its return, the cigarette lighter plug must be in the cigarette lighter socket,
3. When the vehicle is in motion or when the vehicle is stationary with the engine on, the power LED on the device and in the cigarette lighter plug must be on. In the event that the light is off, the competitor is required to check the efficiency of the cigarette lighter socket and ensure the availability of voltage. When this is not possible, you should immediately:
 - a. notify the Competitors Relations Officer,
 - b. call the number on the label of the device,
4. After the end of the Reconnaissance, return the device, undamaged, to the Rally Office.

Device damage:

The following will be considered damage to the device:

- damage to the power connector (cigarette lighter) or connecting cables,
- damage to the device casing that can be noticed and described by means of a photograph and a protocol,
- damage to the electronics of the device that can be noticed and described through photography and protocol.

Appendix 8 – Safety Tracking System

1. The PZM-GPS safety tracking system unit is installed by the PZM-GPS service team.
2. The PZM-GPS safety tracking system unit is owned by PZM and will be removed after the end of the Rally.
3. You will be given a receipt that will authorize you to collect the documents from the Rally's Office.
4. In case a team withdraws from the Rally the PZM-GPS safety tracking system unit should be returned to the PZM-GPS servicemen who will be available at the Service Park or it should be delivered to the Rally's Office.

Mode of operation PZM-GPS safety tracking system

The PZM-GPS safety tracking system installed in your vehicle during the Rally sends a signal to the Rally Command Centre (RCC). The system is working only on Special Stages and is activated automatically, so it doesn't need any operation before start and after finish the SS.

In case of stopping the car on the SS system is sending the warning signal to the car unit. The lamps in manipulator panel (Green and Red) start blinking. That means that operator of RCC see the car standing on the SS and expect to have the information from the crew. Within 1 minute from stopping over the Special Stage the driver or the pilot should press the proper button to clarify the situation.

PRESSING the GREEN BUTTON means that there is NO NEED to send the emergency service (OK). To avoid accidental activation, the **GREEN BUTTON** must be depressed for 2 seconds. Correctly pressing the green button will be confirmed by short blink of green lamp in the button and acoustic signal (two short loud beeps).

NOT PRESSING the GREEN BUTTON within 1 minute after stop on the SS means the necessity of an assistance and it will initiate the intervention of the emergency service.

In case of emergency, when the crew would need any help form RCC the RED BUTTON should be pressed. Depressing the **RED BUTTON** means the emergency and the crew need help for themselves or for somebody else (for example, if they noticed any dangerous situation over the SS).

To avoid accidental activation, the RED button must be depressed for 2 seconds. Correctly pressing the red button will be confirmed by short blink of red lamp in the button and acoustic signal (two short loud beeps)

Within few second after depressing any button, the lamp inside them will light constantly. That means the information from the car is received by RCC and the status of the car is known by the RCC operator.

In case of any needs the operator of Rally Control Centre can send to the Rally crew a reminding signal (series of short beeps) and blinking the **YELLOW LAMP**. The reminding signal can be cancelled by pressing any proper button on manipulation panel.

In case of any problems with the PZM-GPS safety tracking system the PZM-GPS service team will help you in the Service Park.
